Studies have shown that confident, articulate children find it easier to make friends, accept new challenges and explore new directions. The Drama Kids Lower Primary class for students in grades K-2 (ages 5 - 8) is designed to help each child achieve these invaluable life skills with a variety of interesting and stimulating drama-based lessons tailored to their particular needs and abilities. Our Lower Primary students will participate in a wide range of activities including improvisation, vocal expression and dramatic movement. Drama Kids' lessons, activities and drama-based games inspire participation! Your child(ren) will have fun while also developing their empathy, creativity and confidence!
