

WHAT'S NEW?

The Active Minds Class is happy to announce that we've partnered with CHA to bring our renowned program to it's students in the form of after school programing.

Parents can expect the same level of expertise, development and growth as they've come to expect with our In school sessions done throughout the year at CHA.

THE ACTIVE MINDS CLASS *After School*

LEARN, GROW & PLAY

All of The Active Minds class curriculums were engineered using Washington State's Social Emotional Learning standards for youth development. Now - The up beat, fast paced, exciting AND sweat causing challenges and games... We came up with those ourselves.
